**Subject:** Melrose BID Parking Administration

I've been talking with Jeff about how we are going to find a replacement for him with respect to Melrose BID valet parking administration.

(I was hoping that we would be able to get approval from his new employer for him to continue in the role with Melrose BID since it is a non-profit organization contracted with the City doing essentially public service work. I guess that's not going to work.)

Yesterday, Jeff said you had someone in mind.

Jeff felt that we needed some kind of a comprehensive DB, possibly an Access DB model. One of the Westchester BID Board members has introduced me to a young man who is looking for permanent employment but who might also be well suited to assist on our Melrose BD development. His name is Safwat Rahman and I've attached his impressive CV. I'm not sure if he is interested in working with us on this DB or the extent to what we really need. But I wanted to introduce this gentleman to you.

In addition, I understand that there may well be a former entitlements planner with extensive parking experience that could well be interested in some permanent part time work for us. I should have his name and information as to his interest next week.

Let's talk please.
